# Transpack Cabins

**Adaptable,  
flexible,  
versatile.**

**Anywhere,  
everywhere.**

**W**e're solution-driven and that means whatever your needs, our easy-to-install Transpack cabins are the quick, easy, versatile and reliable answer.

From rural schools to clinics to a mining or exploration site, a suite of Transpack cabins comes complete with all amenities including sleeping, storage, eating, laundry, ablution and recreational facilities. And, you have the option to purchase or rent at competitive rates.

Our cabins are easy to unpack, erect and commission with speed and accuracy. All assembly can be done on site with standard tools. As we provide adjustable base jacks as part of our kits, our cabins can be erected on virtually any surface.

**RULER** Machine

**A**s freight costs into Africa can be prohibitively expensive, we transport collapsed units which we erect on site to your requirements. Easy-to-install accommodation solutions

Once our cabins reach their destination, they are easy to unpack, erect and commission with speed and accuracy. All assembly can be done on site with standard tools. Each of our cabins can be erected on virtually any surface because we provide adjustable base jacks inside our kits. This system allows the end-user to join multiple units, even if the ground is uneven or not level. What's more, should any cabin panel or other component be damaged, it is easy to replace because of the simple, modular designs we use.

**RULER** Machine

We are able to supply and support a comprehensive range of affordable, easy-to-use and robust steel containers that can be used for standard and nonstandard storage and shipping requirements, as well as converted units for a broad spectrum of accommodation and workplace requirements.

# Steel Containers

## Tough, dependable, strong-as-steel storage solutions.

**U**fudu's comprehensive range of general purpose ISO dry-freight and refrigerated cargo containers, ideal for perishable cargo, is available in a wide choice of sizes and designs. Affordable and easy-to-use, Ruler's product and service excellence extends to the supply and support of affordable and easy-to-use sturdy steel containers.

Our steel containers are ideal for standard and non-standard storage and shipping, as well as converted units for a wide range of accommodation and workplace requirements. Our low-maintenance, impact-resistant, weatherproof, safe and secure steel container units are easy to transport, with an extensive range of conversion options, from site office, mobile workshops, ablution facilities and many more.

# Prefab Buildings

We provide a comprehensive range of affordable, efficient and lowmaintenance prefabricated buildings.

Affordable, efficient and low-maintenance, our prefabricated buildings are the first choice for all sizes, configurations, time frames and usage needs. From a mini-store to a micro-business, to classrooms, to a full mining or construction village complete with ablution, dining and recreational facilities for hundreds of workers, we'll deliver to site as well as erect and maintain our custom-made prefab units

sites offices  
..kitchens and canteens ..mobile homes  
..classrooms  
..dormitories  
..ablution facilities  
..shows stands and other event facilities.

## The clever choice for smart results.

**RULER** Machine

In many instances, we are able to design, configure, supply and install a complete accommodation solution within short time. At all times, our goal is to supply what the customer needs as swiftly and efficiently as possible.

Once units are delivered on site and all the required fittings have been installed and tested, we work diligently to ensure all services – including water and electricity supply and plumbing are functioning fully to specification. Working in partnership with our reputable suppliers, we strive to ensure stringent quality assurance management at all times.

**Focus on being fast and efficient**

# Logistics & Services

We offer a full range of logistics and support services that includes a comprehensive range of domestic and international freight forwarding services for all our product lines for delivery almost anywhere in the world.

## **We get what you want where you need it, fast**

Ruler provides a full range of logistics and support services, from the time of design and order through to manufacturing, transport and installation. Where applicable, we provide a full range of product repair and refurbishment services to ensure peace of mind.

## **Comprehensive freight solutions**

To complement this service, Ufudu operates an in-house transport division to provide speedy delivery and minimise the risk of damage to leased and purchased units. We also relocate units as a standard component of our services.

## **Commissioning and erection**

Our dedicated team of experienced staff provides a complete on-site erection and commissioning service for all our products.

## **Refurbishment and repairs**

Our experienced maintenance team can repair or refurbish units on request.
